VOL: 6 No. 3&4

JULY&OCTOBER 2006

FROM THE DESK OF PRESIDENT

Dear members,

At the outset, I thank the members of SEA India for unanimously electing me as the President. From the inception, SEA India is striving hard to generate, develop and to maintain high degree of professionalism among the safety engineers.

Though SEA India is just five years old, more than 310 professionals working in the field of safety education, safety law enforcement, safety consultants, safety managers and safety officers have become members from all over the country and beyond.

I take this opportunity to request the members to join me in rededicating ourselves to the cause of enhanced safety, health and environmental professionalism.

With best wishes for a happy, prosperous and safe new year 2007.

R. Thiruvengadam

President
SEA India
